**Summary** I am a dedicated and passionate web and game developer exploring new roles in web development, coding, and beyond. I am a collaborative team player with an unmatched work ethic and inquisitive, problem-solving personality, and consistently deliver high quality user-facing content both independently and within my team.

**Skills** HTML | CSS | Javascript | JQuery | Bootstrap | NodeJS | MySQL | MongoDB | React

**Experience** Broadsword Online Games, Designer/Scripter, 9/2022–10/2024

- Fulfilled duties as primary scripter/implementer for The Simpsons Tapped Out mobile game. Primary responsibilities as a member of the design team include working closely with art, engineering, and QA to implement new game content for players including playable quests, integrating art/sound assets, and configuring in-app purchases and micro transactions.
- Tasks include the use of XML data, Perforce, Xcode, MacOS, Excel/Google sheets, and build/deploy locally for testing and debugging across multiple devices and platforms.

Whole Foods Market, Buyer/Supervisor, Charlotte NC 9/2011–9/2022

- Completed meat cutter training and certification.
- Successfully led team in shift supervisor and buyer roles.
- Awarded Team Member of the Month and Rock Star recognition, and excellent yearly performance reviews.

Advanced Center for Physical Therapy, Patient Care Technician, Charlottesville, VA 12/2010–09/2011

- Excelled at improving patient experience and wellbeing while assisting in physical therapy treatments.

United Parcel Service, Origin Data Capture Clerk, Charlottesville, VA 10/2009–9/2011

- Received consistently exceptional performance reviews.
